DEMONSTRATION OF ALL PURPOSE EQUIPMENT WITH BALL MILL AND PLANETARY MIXER

Demonstration of all purpose equipment with attachments like ball mill and planetary mixer was given by engineer from Orchid Scientifics. He explained operation of ball mill for size reduction of dried crystalline material along with factors like use of different sized balls, rotation speed, time and selection of material to be used for size reduction. He also demonstrated operation of planetary mixer and its factor like speed, temperature, time, sample size and type of sample for mixing.

Supportive Staff/ Non-teaching programme

All Non-teaching staff were attended the training programme on "Fire extinguisher" in seminar hall on Tuesday 22 September at 02:15 pm

Date : 22/09/2020

Time : 02:00 pm -03:00pm

The training programme on "Fire Extinguisher" was conducted to educate staff on the proper usage and handling of fire extinguishers in the event of a fire emergency. The primary goal was to empower staff with the knowledge and skills necessary to respond effectively to fire incidents, ensuring the safety of individuals and property within the workplace.

Objectives:

- To familiarize participants with the types of fire extinguishers and their specific applications.
- To train participants in the proper technique for using fire extinguishers.
- To educate participants on the different classes of fires and the appropriate extinguishing agents for each.
- To raise awareness about fire prevention measures and evacuation procedures.
- To conduct practical exercises to reinforce the theoretical knowledge gained during the training.

The training programme on "Fire Extinguisher" successfully achieved its objectives by equipping participants with the necessary skills and knowledge to respond effectively to fire emergencies. The acquired skills are vital in ensuring a safer work environment for all employees.

Demonstration of Aseptic Area

Report

The demonstration session of Aseptic Area was arranged on 12/02/2021, Saturday at 10:00 am for students of First Year B. Pharm. This demonstration session served as a platform for students to gather knowledge of pharmaceutical sciences with emerging trends and innovative approaches. The demonstration session is taken as an effective and developmental practice to ensure that students will be aware of novel approaches that can be used in Formulation and development, Research and Development, etc.

In this demonstration session, arrangements as well as applications of the Aseptic Area, are explained to students. Followed by an introduction of the entire components of the Aseptic Area and its stepwise working in detail.

The outcome of the demonstration:

1. Students learned the components of the Aseptic Area.
2. Students understood the role and importance of the Aseptic area in pharmaceutical industries.
3. Students understood different applications of Aseptic area
